** The CCAA is one of nine Comprehensive Cancer Centers in the Netherlands. Its area is the north-western part of the Netherlands and involves 2,800,000 inhabitants, 17 general hospitals, two university hospitals and the Netherlands Cancer Institute.*
The comprehensive cancer centers (CCC's) in the Netherlands have been founded to provide comprehensive and high-quality cancer care close to home for all cancer patients. The CCCA provides and coordinates a collaboration of all health care professionals and institutions involved in cancer and palliative care. The CCAA functions as a centre of knowledge and quality care that helps to improve cancer treatment, patient care and clinical research as well as prevention of cancer and decrease of cancer mortality

Long-Term Excess Mortality and Morbidity Following Treatment of Childhood Cancer
