Curriculum Vitae

Clarissa Calil Bonifácio was born on the 1st of March, 1979, in São Paulo, Brazil.

At the mere age of 18 she had to make a choice between studying Dentistry and Psychology so instead she decided to try studying both. During the next four years she managed to tackle both studies. The moment she had clinical contact with children within the field of Dentistry was decisive for her career choice.

In 2004 she graduated from the Faculty of Dentistry at The University of São Paulo. In 2006 she was acknowledged as a Pediatric Dentist. In 2008 she completed her Masters in Science in Restorative Dentistry. At the end of the same year she moved to The Netherlands and started her PhD at ACTA. Alongside her PhD, she started her tasks as a clinical trainer for undergraduate students in 2009 and became the coordinator of the undergraduate course in Pediatric Dentistry at ACTA in 2010.

Her research focuses are Cariology, Paediatric and Restorative Dentistry. Within these research fields she is also supervising exchange programs for undergraduate students.
