ACKNOWLEDGMENT

My gratitude goes to Prof. dr. Albert J. Feilzer, who accepted me as a visiting scholar first and then started the research program. He did more than a promoter to take care of my things both academic and personal for an easier and happier stay and work in the Netherlands.

I wish to thank Pallav who always supported my behavior in thought, performance and writing of research.

The doctorate committee is gratefully acknowledged for evaluating my thesis.

Cees, Toon and Arie who warm-heartedly helped the project in arrangement and technical issues.

Jacqueline is appreciated for her kind catering and showing around.

The following persons are acknowledged for their friendly care: Moustafa, Hesam, Joris, Filip, Alma, Niek, Jef, Giuseppe, Ahmed, Tony, Anne, Leontine, and the staff in the ACTA dental lab.

I would like to thank my other colleagues in ACTA, friends in the Netherlands and colleagues in the West China College of Stomatology for their support, help and care. My Dean, Prof. dr. Xuedong ZHOU and Chairman, Prof. dr. Zhimin ZHU made the collaborative research feasible. The financial support by the CSC of the Chinese government and the IOT/ACTA of Universiteit van Amsterdam and Vrije Universiteit, the Netherlands are gratefully acknowledged,

and surely, my wife, Bo Wu, for her encouragement.
