CONTENTS

Chapter 1: Introduction and research questions 7

Chapter 2: Prevalence of Deciduous Molar Hypomineralisation in 5-year-old Dutch children 23

Chapter 3: Validity of scoring Deciduous Molar Hypomineralisation on intra-oral photographs 31

Chapter 4: Relationship between Deciduous Molar Hypomineralisation and caries
- 4.1: Caries pattern in primary molars in 5-year-old Dutch children 45
- 4.2: Factors increasing the caries risk of second primary molars in 5-year-old Dutch children 57

Chapter 5: MicroCT study on Deciduous Molar Hypomineralisation 69

Chapter 6: Determinants and associated factors for Deciduous Molar Hypomineralisation
- 6.1: Pre- and postnatal determinants for Deciduous Molar Hypomineralisation 81
- 6.2: Is maternal medication use during pregnancy associated with Deciduous Molar Hypomineralisation in the offspring? 97

Chapter 7: Relationship between Deciduous Molar Hypomineralisation and Molar Incisor Hypomineralisation 109

Chapter 8: General discussion and clinical implications 123

Chapter 9: Summary and general conclusion / Samenvatting en conclusie (in Dutch) 135

Epilogue

Dankwoord (Acknowledgements in Dutch) 145
