# CURRICULUM VITAE

Greetje J. de Grooth was born in Groningen on the 4th of may 1972.

She passed her secondary school exam (VWO) at the Augustinus College in Groningen in 1991. In her holidays she helped her parents in their general practitioners practise in Peize.

In 1991 she started her medical training at the Medical Faculty of the University of Utrecht. During her study she participated in a research project at the Medical Faculty of the University of Botucatu in Brazil and she did a clinical training in Nieuw Nickerie in Surinam. Furthermore, she was a teaching assistant at the Department of Reanimation and Clinical Toxicology and the Department of Functional Anatomy.

After obtaining her medical degree in December 1998, she worked as a junior resident in the St. Jansdal Hospital in Harderwijk at the Departments of Cardiology, Internal Medicine, Pulmonary Disease and Paediatrics.

In February 2000 she started working as a research fellow at the Department of Vascular Medicine at the Academic Medical Center (AMC), University of Amsterdam, under the supervision of Prof.dr. J.J.P. Kastelein. The research performed is presented in this thesis.

In January 2004 she will start her specialist training in Cardiology at the Medical University in Leiden (supervised by Prof.dr. E.E. van der Wall).
